

WORKSHOPS

AI & Threat Intelligence

In partnership with EC-COUNCIL, experience the first-ever AI Mobile Security Toolkit Workshop (STORM) in Canada. Participate in hands-on learning using a fully loaded, portable Raspberry Pi touchscreen device.

Operate STORM independently to assess threats and vulnerabilities in an AI environment and action solutions instantly.

Who should attend?

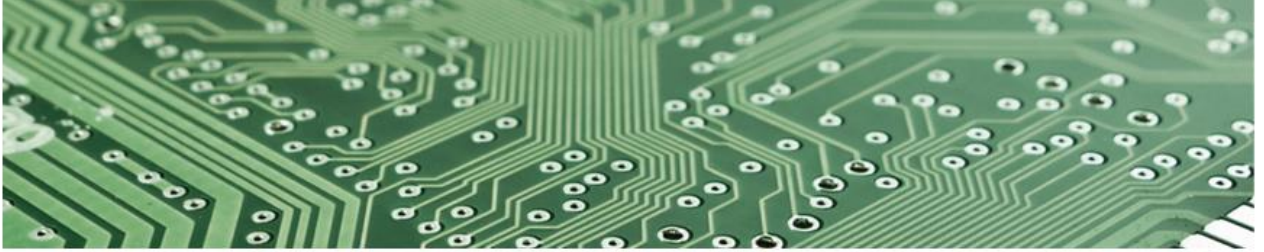

Professionals in cyber security, ethical hackers and penetration testers. An intermediate level of knowledge is required.

Experience how AI can enhance your cyber security protocols

- Receive your own STORM device.
- Test your knowledge in a virtual lab.
- Four hands-on, interactive modules.
- Train with experts with over 20 years of experience.
- Obtain a certificate of participation.

***EARLY BIRD PRICING.** You must register by Friday, March 29 to receive early bird pricing. Limited spots available at this price. *Cost: \$1,150**
After the early bird deadline has passed the full price of the workshop is \$1,250.
Registration costs include your own STORM device to keep, six month access to the iLabs environment, full access to conference facilities, keynote, meals and parking.

WORKSHOPS

AI & Solutions Development

Special pricing
sponsored by

Learn how to create a framework to assess and develop AI solutions using templates developed by industry experts in a variety of sectors.

Understand the technical and operational skills required to apply AI to your datasets. Create a thorough checklist to ensure all your requirements are addressed.

Who should attend?

Anyone interested in how AI solutions are developed.
No prior knowledge of AI is required.

- Test and validate your solutions development process.
- Consider finance, legal, IT and other requirements.
- Train with experts with over 20 years of experience.
- Obtain a certificate of participation.

Develop and test
frameworks for your
AI project

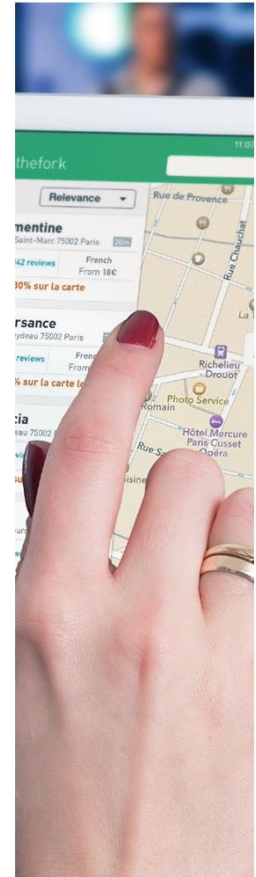

SPECIAL PRICING: \$199*

**You must register by Sunday, March 31 to receive special pricing. Limited spots available at this price.*

After the special pricing deadline has passed the full price of the workshop is \$480.

Registration costs include full access to conference facilities, keynote, meals and parking.

WORKSHOPS

AI & Compliance

Special pricing
sponsored by

Explore a series of modules to learn about Canadian and international compliance regulations that impact AI, as well as Top-Down AI versus Bottom-Up AI.

Explore situations where products are impacted by AI and examine cases where AI is used to improve efficiencies around compliance scanning.

Who should attend?

Risk, insurance and compliance managers in all sectors.
No prior knowledge of AI is required.

Practice
risk-free,
compliant AI

- Participate in four hands-on, interactive modules.
- Learn about General Data Protection Regulation and other global developments.
- Test your knowledge through case studies.
- Train with experts with over 20 years of experience.
- Obtain a certificate of participation.

SPECIAL PRICING: \$199*

**You must register by Sunday, March 31 to receive special pricing. Limited spots available at this price.
After the special pricing deadline has passed the full price of the workshop is \$525.
Registration costs include full access to conference facilities, keynote, meals and parking.*

ENABLE AI SUMMIT

WHAT is the Enable AI Summit?

Hosted by Durham College's AI Hub, the Enable AI Summit will showcase the artificial intelligence (AI) potential within the Durham Region and across the Greater Toronto Area, providing a platform to converge around core AI applications and empowering businesses to solve complex operational problems through applied research and AI.

Hear from industry experts, participate in master classes, develop your AI skills and knowledge and receive a certificate of participation in specialized applications, while also networking with colleagues.

Choose the workshop you want to focus on for the day; spend the morning training in that topic, followed by hands-on learning to hone your skills in the afternoon.

Please note, registration is for one workshop to participate in for the entire day.

June 6, 2019
