Film Screening: Much Too Young

Date and Time: Thursday, January 16 6:00 pm - 8:30 pm

Address: 1600 Champlain Ave., Suite 202, Whitby, ON L1N 9B2

What does it mean to be a young adult who becomes a care partner for a person living with dementia? This documentary is a powerful and unflinching look at four families struggling to cope with an unexpected role reversal and the complications that come with caring for a parent who has been diagnosed with early-onset Alzheimer's disease. This screening is intended to raise awareness for young carers and empower them to share their stories.

Following the film, there will be a panel discussion with Dr. Vivian Stamatopoulos, Emily & Kathleen Frascetti from the film and Young Care Partners from Durham.

THE MOZART EFFECT: LIVE! • ONTARIO PHILHARMONIC

Date and Time: Friday, January 31 8:00 pm - 10:30 pm

Address: Meridian Hall (formerly Sony Centre for the Performing Arts), 1 Front Street East

The Mozart Effect: Live!™
A Symphony For The Senses
Presented by Classical FM 96.3

Based on the genius of Wolfgang Amadeus Mozart and featuring his most popular works, *The Mozart Effect: Live!* takes the presentation of the live symphony orchestra to an entirely new place. Performed by **Ontario Philharmonic**, accompanied by high definition large format immersive video and visual effects, *The Mozart Effect Live!* is curated to stimulate the senses, inspire and engage the deepest corners of the human psyche.

Timed to the dynamics of the orchestra's performance of Mozart's timeless music, the visual presentation takes the audience from the farthest reaches of space, through awe inspiring flights over mountains and into the deepest canyons, to human relationships. These visuals are married with special lighting effects and live video close-ups of the musicians and conductor. The result is a sensory enhanced symphonic aural and visual experience, with moments of intimate performance nuance and powerful climactic peaks.

The transformational power of music to stimulate human cognitive processes, improve memory and focus using Music Therapy were first explored by educator Don Campbell in his best-selling book *The Mozart Effect*. Don Campbell subsequently curated a series of themed albums of Mozart's music that sold millions of copies. By special permission of his estate, Don Campbell's innovative teaching was the inspiration to bring *The Mozart Effect: Live!* to the concert stage.

The creators of *The Mozart Effect: Live!* have two main objectives; to leave audiences enlightened, invigorated, and having experienced something entirely unlike any other concert or theatrical event and to introduce live orchestra to new audiences.

The Mozart Effect: Live! featuring the music of the world's most popular composer is the perfect introduction to live orchestral music for the uninitiated, and a new adventure for the symphony enthusiast.
